Dear "The Business"

Just thought that I'd drop you a note to let you know how much I really enjoy your band and the music that you play. My wife and I are starting to feel like we're groupies, we've been going to your concerts for the past 4 years now and because every time we get the e-mail telling us where you're going to be performing we stop and take a look at our calendars to see if we can make it work in our schedules. As parents of four little kids living in the suburbs we don't get out as often as we like but it's always a special treat when we can get to see you perform. In fact, each time we do hear you play which is mostly at the Green Dolphin, we always bring a group with us.

This past weekend you performed out at Navy Pier's Beer Garden and the timing was such that I was able to coordinate a bachelor party that I was in charge of for a group of guys from Minnesota and a gal from DC to go and see you perform. You all were as fantastic as always. Not only do you have a great variety of music from the Earth Wind and Fire style to the latin sounds which I absolutely love. (Please do more latin) Everyone that we bring to hear you play always enjoys the enthusiasm that all of you have and we love the synchronized movements of the brass section. Your vocalists always sound great and are fun to watch.

Thanks for the e-mails letting us know where you're going to be next and thanks for the music! You all do a fantastic job!

Regards,

Murray Johnson
